

TELEMATICS

Control your site without being on it.

SG Telematics comes as standard on hired units, or when purchased with a service plan.

It means no more guessing what's happening on site. You can see location, status, battery and activity in real time, without leaving your desk. Fewer wasted visits. Faster decisions. Problems picked up before they turn into downtime.

It's all rolled into your service plan. Hardware, tracking and support in one. Two services a year, and if something goes wrong, we're on it. No callout charges. Just parts.

For GS6 safety-critical use, it also records and alerts on over-height vehicle strikes.

Choosing to Hire

Full peace of mind. Tracker, telematics, unlimited warranty and bi-annual servicing all included.

- ✓ Tracker & telematics included.
- ✓ Unlimited warranty.
- ✓ Bi-annual service plan.
- ✓ Free callout labour.
- ✓ New-for-old swap out.
- ✓ On-site support 365 days.
- ✓ 24/7 telephone support.

Opting to Purchase

Complete ownership and control. Tracker fitted as standard on all purchased units with service plans.

- ✓ 12 months warranty.
- ✓ Product training included with installation.
- ✓ Only if required, we'll do a quick site survey (often over the phone) before installation.
- ✓ 24/7 telephone support.
- ✓ Add a service plan for full access to telematics and PUWER compliance.

Telematics data plan INCLUDED

Standalone

- ✓ Live access to all site equipment
- ✓ Remote login & troubleshooting
- ✓ Unlimited email reports (daily/weekly/monthly)
- ✓ Live email alerts
- ✓ Full rights API access

PUWER 1998 Compliance: The Provision and Use of Work Equipment Regulations mandate all work equipment must be maintained in an efficient state. We recommend a service plan alongside all purchased units. Prices subject to change - current as of January 2026.
